

July 30, 1973

Dear Harold,

I'm ~~very~~ pleased that I was able to talk with you during my ~~visit~~ visit, and that we were able to re-establish a civilized relationship. I haven't yet had the time to catch up on my work and write up many of the things I learned at the ~~Archives~~ Archives and elsewhere, so in this note I just want to pass on some material that will interest you and get together on the Material the ~~Archives~~ Archives has recently released.

Enclosed are 2 memos of April 16 from Griffin to Slawson, which I found in the Odio name file. I ~~copies~~ copied them right away because I suspected that they were supposed to be withheld. I believe the 3-page memo ~~contains~~ touches on ~~subjects~~ subjects which you indicated to me you had found out about from other sources. The short memo was, I think, in the odio file only because there were 3 memo with the same author and date, but it is obviously interesting in its own right.

I'm also enclosing my writeup of the changes made in Jackie's testimony.

~~APR 16~~ Marion Johnson indicated to me that he would write various researchers about material that had been released in the last year or so. I don't have such a letter yet, but I know some people ~~had~~ have received it. I saw all (I think) of the listed stuff at the Archives, ~~and~~ and ~~place~~ placed an order for a Xerox copy. I would like to share the cost with anyone else who wants copies, and do the Xeroxing out here, where it is the cheapest. I mentioned this to Bob Smith but also wanted to let you know directly. I ordered the whole thing, except for about 50 pages of nut stuff (on which I took notes) and a few ~~more~~ duplicate copies; I ~~don't~~ don't have a page count but I would estimate 300 to 500 ~~a~~ pages. I will let you know when I receive my copies.

Sincerely,

Paul
